

# Tilt/Turn Windows

# THERMAL WINDOWS, INC.

## Versatile, High Performance Windows for Retrofit or New Construction

Interior

Exterior

The Series 1900 is not only a fully-operational casement, it can tilt from the top for easy ventilation with minimal obstruction of views.

Each window includes an adjustable tilt limiter.

Classic inswinging casement operation

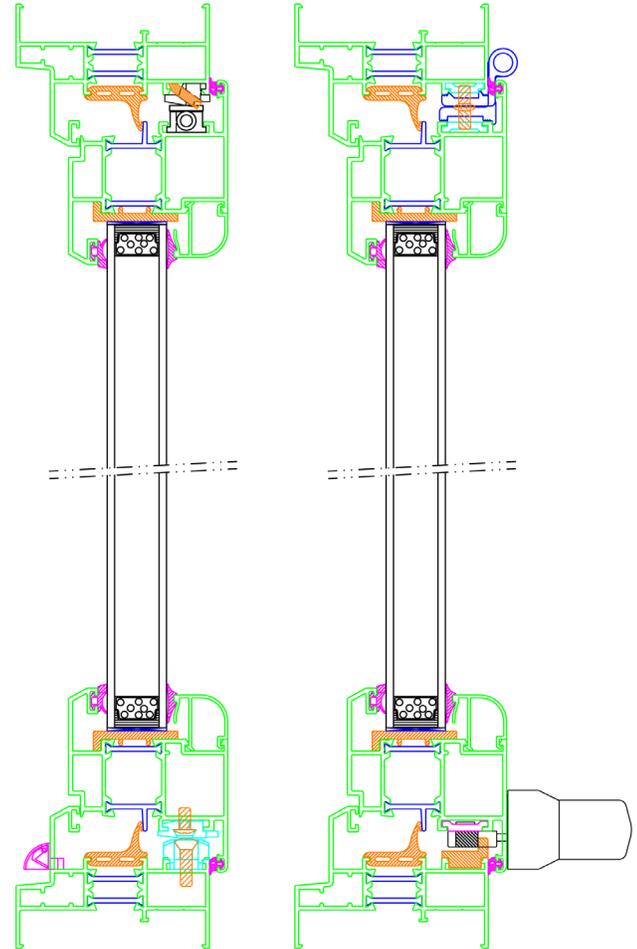

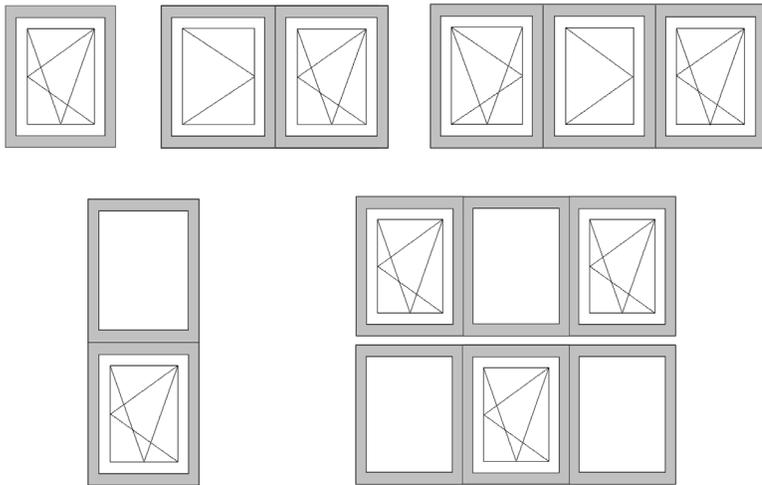

Fully operational to 90 degrees or more

# Distinctive Styling and High Performance

Series 1900 Tilt/Turn Casements from Thermal Windows, Inc. are the perfect solution when views, egress capabilities and ventilation are high priorities.

With profiles matching our Series 1400 Terrace Doors and Fixed Panels, the Series 1900 can be mullied and stacked in many combinations. This allows great design flexibility without sacrificing structural performance.

## Standard Features

- 3¼" frame depth
- Dual polyamide thermal barriers in frame & sash
- 1" Insulated glass
- AAMA 2604 organic powder coat finish
- 5 Tier 1 standard colors
- Multipoint locking system
